

MACCHINE LAVORAZIONE LEGNO - WOODWORKING MACHINERY

Forty years experience, leader in the production of traditional woodworking machines.

The production is managed internally, allowing to run every type of work, from the machines in series to the customized ones. The supervising of each step guarantees the good functioning of machines and all details are well cared.

QUALITY WITHOUT COMPROMISES

THE MOST STURDY ON THE MARKET, COMFORTABLE AND POWERFUL, THANKS TO THE ROBUST HEAD AND THE GREAT SCREEN GUIDES THAT ARE MADE IN CAST IRON AND STEEL. THE RETURN OF THE BELT ALLOWS A VERY HIGH ROTATION OF THE TOOL.

PLANE OF LARGE DIMENSIONS The large plane allows a comfortable support of the piece to be worked; it's equipped with adjustable telescopic stop.

TWO-SPEED MOTOR

The two-speed motor (spindle 2250/4500 rpm) makes every type of possible working, from the one with smallest tool to the most heavy one with large dimension tools.

PEDAL POCKET LOCKING The pneumatic clamping of the pedal makes the loading and unloading of the pieces convenient and quick, ensuring an optimal fixing during the processing.

TILTING TABLE The revolving fence (goniometer) on the table -45 ° / + 45 ° allows to perform any kind of work in full comfort and safety.

WESTCOTT UNIVERSAL BIT HOLDER SPINDLE 0 - 20 mm

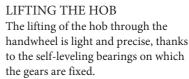

TWO MOVEMENT LEVERS

The two movement levers guarantee the absence of vibrations (typical of the single lever machines, instead) as well as a complete control of the movements during the processing.

SPINDLE SUPPORT The large spindle support with sealed bearings for high speed, allows workings on large diameters.

TECHNICAL DATA

CMA72 ON DEMAND

BIT MORTISING MACHINE			2 speed motor
PLANE DIMENSION	mm	600 X 300	Tilting table - 45° / + 45°
SPINDLE SPEED	g/1'	4500	Pneumatic wood presser with pedal control
WESCOTT SPINDLE	mm	0 - 20	Movement wheels
MOTOR POWER	KW.	2,2 (HP 3)	Double pneumatic bridge wood presser with control Fast
TRANSVERSAL RUN	mm	210	pneumatic wood presser
LONGITUDINAL RUN	mm	180	Motor protection (in dotation, on CE version machines)
VERTICAL RUN	mm	220	Revolving table inclination + 45°/ - 45°
OVERALL DIMENSIONS	mm	1100 X 750 X 1000	
NET WEIGHT	Kg	220	
The manufacturer reserves the right to make			
any technical or constructional modifications.
